APPROVAL  
OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place an manner of use of the waters of an underground source as heretofore granted under Permit 42637, is issued subject to the terms and conditions imposed in said Permit 42637, and with the understanding that no other rights on the source will be aggected by the change proposed herein. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030.

The total combined duty of water under Permits 61412 and 61413 shall not exceed 200.0 million gallons annually.

The permittee will submit a report to the State Engineer on a semi-annual basis which contains all surface and groundwater measurements and water use data from each of the permittee's wells and includes the pumping under this permit. This report will be submitted in conjunction with the report required as a condition of Permits 51841 through 51848, inclusive.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to

exceed 0.89 cubic feet per second, but not to exceed 200.0 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before June 19, 1996

Proof of completion of work shall be filed before July 19, 1996

Application of water to beneficial use shall be made on or before June 19, 1997

Proof of the application of water to beneficial use shall be filed on or before July 19, 1997

Map in support of proof of beneficial use shall be filed on or before N/A

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.  
State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this 21st day of February,

A.D. 19 99

R. Michael Turnipseed, P.E.  
State Engineer

(PERMIT TERMS CONTINUED)

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

In the interest of the most efficient use of the limited water resource, the issuance of Permits 61412 and 61413 will allow the concurrent use of the waters from the Barrick Bullfrog, Inc. system for both mine usage (mining, milling, dewatering and domestic) and for municipal service for the Beatty Water and Sanitation District. Usage is authorized under individual permits. The initial limitation on usage will be 100.0 million gallons annually under this permit. The entire 200.0 million gallons annually duty as specified may revert to sole usage by Barrick Bullfrog, Inc. for mine purposes when municipal uses by Beatty Water and Sanitation District ceases.

All of the above stated conditions are issued subject to having no adverse impacts on existing rights.
